Educational Background

Graduated with honors in Medicine from the Catholic University of the Sacred Heart in Rome, presenting a thesis on Echoendoscopy in subepithelial lesions of the gastrointestinal tract, after having attended the Gastroenterology unit for 3 years and the Digestive Endoscopy unit of the Gemelli Hospital for one year.

Earned with honors a Specialization in Gastroenterology from Sapienza, University of Rome (Sant'Andrea Teaching Hospital), discussing a thesis on the endoscopic management of large non-pedunculated lesions of the colon. During the specialization, completed a training period at the Endoscopy Unit of the National Cancer Institute Regina Elena in Rome, where focused on luminal operative endoscopy (endoscopic resections, luminal stenting) and on Echoendoscopy with FNA.

Completed a 6-month Fellowship in Therapeutic Echoendoscopy and ERCP at the University Hospital of Leuven (Belgium), where perfected advanced therapeutic biliopancreatic endoscopy techniques.

Professional Career

Gastroenterologist Endoscopist at the Biliopancreatic Endoscopy and Echoendoscopy Unit of the IRCCS San Raffaele Hospital, Milan, Italy. A large part of the clinical activity is dedicated to the endoscopic therapy of biliopancreatic diseases, performing Retrograde Endoscopic Cholangiopancreatography (extraction of stones, stent placement, ampullectomies, etc.) and Therapeutic Echoendoscopy (EUS-ColedocoDuodenostomy, EUS-GastroEnterostomy, EUS-EpaticoGastrostomy, Draining of peripancreatic fluid collections and EUS-guided gallbladder drainage).

Follows outpatients with pancreatic diseases and participates in the multidisciplinary discussion of patients with Pancreatic Tumors and Hepatobiliary Neoplasms.

PhD Student in Molecular Medicine at Vita Salute San Raffaele University (UniSR).

Lecturer at the School of Specialization in Gastroenterology and tutor of the II level Master's in ERCP at UniSR.

Board Member of the Lombardy section of the Italian Society for Digestive Endoscopy.

Member of ASGE, ESGE, EPC, SIED, SIGE, AISP

Research Field

PhD Candidate in Molecular Medicine at UniSR, studying the role of endoscopy in the prognostic stratification of Pancreatic Tumor.

Promotes and participates in numerous Italian and international research protocols, with a specific interest in the role of new Therapeutic Echoendoscopy procedures in improving the treatment of patients with biliopancreatic pathology.

Co-authored more than 80 papers in indexed Journals of which 29 as First Author.

Scopus H index = 15

Published Articles on indexed journals:
